SUMMARY

AI Engineer with a B.Tech in AI & ML, currently building LLM applications and RAG pipelines for fintech at String Metaverse. Skilled in LangChain, OpenAI APIs, Hugging Face, and end-to-end ML model development. Passionate about shipping production-ready AI systems that solve real business problems.

CORE SKILLS

- **Programming & Frameworks:** Python, Node.js, Next.js, NumPy, Pandas, Flask, FastAPI
- **Cybersecurity:** Web Application Security, Cryptography Basics, Network Fundamentals (TCP/IP, HTTP/S, DNS), Authentication & Authorization
- **Visualizations:** Matplotlib, Seaborn, Streamlit, PowerBI
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Advanced AI & Tools:** Retrieval-Augmented Generation (RAG), LangChain, Hugging Face Transformers, OpenAI APIs
- **Soft Skills:** Communication, team management, adaptability, public speaking

WORK EXPERIENCE

String Metaverse (via Torus Kling Fintech Pvt. Ltd.) — Hyderabad, India

Software Associate (AI Engineer)

Jul 2025 – Present

- Designed and developed ML-driven applications for fintech data intelligence.
- Performed model optimization, prompt engineering, and response refinement to improve LLM answer accuracy.
- Worked with secure API integrations and followed safe handling of API keys and user data.
- Collaborated in Agile teams with developers and product managers to deliver reliable and scalable AI components.

DevZen Software Solutions Pvt. Ltd. — Narsapur

Data Science & Machine Learning Intern

Nov 2024 – May 2025

- Developed and deployed **machine learning models** to enhance business operations.
- Managed **end-to-end ML lifecycles** using Agile methodology.
- Created a **customer churn prediction model** from behavioral and transactional data, helping improve customer retention strategies.
- Built NLP models (BERT, GPT) for question answering and text summarization.
- Developed CNN models for image classification using Roboflow and HuggingFace datasets.

EDUCATION

- **Swarnandhra College of Engineering and Technology, India** 2021 – 2025
 - Bachelor of Technology — Artificial Intelligence and Machine Learning | **CGPA: 8.48 / 10**
 - **K.V.M. Chamber's Junior College, Palakollu, India** 2019 – 2021
 - Intermediate (M.P.C) | **Marks: 967 / 1000**
-

RELEVANT PROJECTS

Bills on Chain

Stack: Node.js, Express, Redis, PostgreSQL, AWS S3, pinata IPFS, open Router, Background workers

- Architected a scalable backend for bill upload, verification, and NFT-based bill ownership tracking, processing 10,000+ monthly transactions and reducing manual effort by 50%.
- Established secure authentication and authorization workflows using Better Auth for secure user and admin access.
- Built async processing pipelines and background workers for bill verification, NFT minting, and mechanized workflow execution.
- Developed analytics APIs and efficient database queries to support real-time dashboard reporting. Implemented API flows for the bill lifecycle (upload → processing → rewards) using Redis-backed queues.

Stock Optimus — Commodity Price Prediction & Stock Optimization

- Developed an **LSTM-based deep learning model** to forecast prices of **22 essential food commodities** across India using real-time data from **550+ reporting centers**.
- Integrated **weather APIs, seasonality, and market trend analysis** to enhance prediction accuracy.
- Built an interactive **visual dashboard** for price trend insights and designed a **buffer stock optimization mechanism** for data-driven decision-making.

ExploreData

- Built a **Streamlit-based Python application** that allows users to upload datasets in **CSV, XLSX, or XLS formats** and provides instant insights, statistics, and visualizations.
- Supports reproducibility through code snippets and includes **file-type and size validation** on uploads to handle user input safely.

ACHIEVEMENTS

- **Finalist & Merit Certificate Holder — PALS ECU CTF 2024, IIT Madras**: secured a merit certificate at a national-level Capture The Flag competition covering web exploitation, cryptography, and forensics.
- **Viksit Bharat @2047** — District Level Declamation Winner and State Level Participant.
- Participated in several college-level competitions including hackathons and project expos.
