About Me:

An Enthusiastic 4th-year BTech student specializing in AIML, with a solid academic foundation and technical expertise in Artificial intelligence Machine Learning Data Science and Web development gained through practical projects and internships. Eager to secure a AI Engineer, Data Scientist position to further develop and apply my skills in the field of Artificial Intelligence

WORK EXPERIENCE

DevZen Software Solutions Pvt.Ltd,Narsapur

Data science Intern

- Designed, developed, and deployed machine learning models to enhance business operations .
- Actively contributed to multiple projects, managing end-to-end development lifecycles using Agile methodology to ensure timely delivery and adaptability.
- Collaborated with cross-functional teams to gather requirements, and develop ML models effectively.
- Developed a data-driven solution to optimize energy consumption in steel industry

INDIAN SERVERS - Software Development Company, Vijayawada, India

Machine Learning Intern | 8 Weeks | May 2023 – June 2023

- Implemented NLP models using state-of-the-art techniques, including **BERT** and **GPT**, to extract insights from unstructured text data.
- Achieve higher accuracy in development of Question & answering, text summarization bot
- Developed **CNN** models for image classifications tasks with **roboflow** and **huggingface** datasets.

Coders cave

Web Development Intern | 4 Weeks |

- By using HTML CSS javascript created a portfolio and make a landing pages like edutech, food restaurant.

CORE SKILLS

- **Programming Languages:** Python **Frameworks:** NumPy, Pandas, Flask
- **Visualizations:** Matplotlib, Seaborn, Streamlit, PowerBi **Databases:** MongoDB, MySQL
- **Machine Learning Algorithms:** Linear Regression, Logistic Regression, Decision Trees, Random Forest, Support Vector Machines (SVM)
- **Soft Skills** – Communication skills, Team management, Adaptability, public speaking skills

EDUCATION

2021 - 2025 | **SWARNANDHR COLLEGE OF ENGINEERING AND TECHNOLOGY, India**

Bachelor of Technology - Artificial Intelligence And Machine Learning | CGPA – **8.46** out of 10

RELEVANT PROJECTS

ExploreData

ExploreData is a Streamlitbased Python application designed to simplify data analysis for everyone. This powerful tool allows users to upload datasets in CSV, XLSX, or XLS formats, and provides immediate insights, comprehensive statistics, and a variety of visualizations. Additionally, it supports reproducibility by displaying code snippets, ensuring users can easily replicate their analyses. whether you're a data novice or a seasoned analyst, ExploreData makes data exploration intuitive and efficient.

Visual Question Answering and Image Captioning Bot

Developed an interactive **Streamlit-based AI application** that performs **Visual Question Answering (VQA) and Image Captioning** using deep learning models. The system allows users to upload images, capture them via webcam, or provide URLs. It utilizes **VILT (Vision-and-Language Transformer) for VQA** and **BLIP for caption generation**, providing both **text and audio responses**. Additionally, the application enhances image quality and integrates real-time webcam streaming.

MEMBERSHIPS

- IEEE Student Branch member since 2023
- IEEE Computational Intelligence society member

ACHIEVEMENTS

- Viksit Bharat @2047 District Level Declamation Winner and State level Participant
- Became a Finalist and secured merit certificate in PALS ECU CTF competition 2024 at IIT Madras.
- Participated in several college level competitions like hackathon , project Expos.

EXTRACURRICULAR ACTIVITIES

- Hosted several events at the college level.
- Main coordinator in departments Technical Club

Declaration

- I here by declare that the information provided above is true and accurate to the best of my knowledge.
